

Construction and assembly production in March 2026¹

21.04.2026

↑ 0.4%

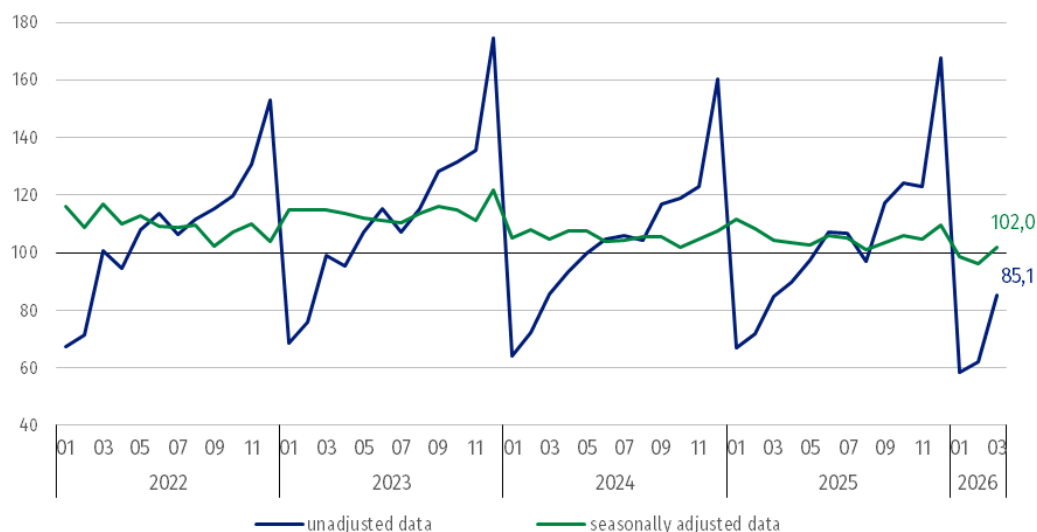

Increase of construction and assembly production compared to March 2025

According to preliminary data construction and assembly production (in constant prices) carried out domestically was in March 2026 higher by 0.4% an annual. Compared to February 2026 an increase was noted by 37.0%.

In March 2026, after eliminating the seasonal factors, construction and assembly production reached the level by 2.1% lower than in the corresponding month of the previous year and higher by 6.2% in comparison to February 2026.

After seasonally adjusted, the decrease was noted in construction and assembly production of 2.1% an annual

Chart 1. Construction and assembly production (constant prices; average monthly base 2021=100)^a

^a Preliminary data for March 2026.

Compared to the average monthly value of 2021 construction and assembly production in March 2026 (in constant prices), was lower than 14.9%.

Construction and assembly production in March 2026 increased for entities dealing mainly with construction of buildings of 1.4% and performing specialised construction activities of 0.2% whereas a decrease was noted in entities whose basic type of activity was civil engineering of 0.2% an annual.

In March 2026 compared to February 2026, an increase in the sales of construction and assembly production was noted in all divisions. In entities performing specialised construction

¹ Preliminary data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

activities of 43.9%, dealing mainly with civil engineering works of 38.4% and whose basic type of activity was construction of buildings of 29.7%.

Table 1. Construction and assembly production (constant prices)^a

Specification	2026				
	02	03	02	03	01-03
	previous month = 100		corresponding period of the previous year = 100		
CONSTRUCTION	106.4	137.0	86.3	100.4	93.0
Construction of buildings ^Δ	110.0*	129.7	83.2*	101.4	94.2
Civil engineering works ^Δ	105.1	138.4	88.4*	99.8	92.4
Specialised construction activities	103.8*	143.9	87.8	100.2	92.3

^a Data including final information on production and prices in February and preliminary data in March 2026.

* The data has been changed compared to what was previously published.

^Δ Abbreviated form according to PKD 2007.

In the period January-March 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted of 7.7 in entities performing specialised construction activities, in entities dealing mainly with civil engineering works of 7.6% and whose basic type of activity was construction of buildings of 5.8%.

Analyzing the value of construction and assembly production in March 2026 in terms of construction works (investment and restoration works) were observed:

- an annual increase for investment works by 11.8% and a decrease for restoration works by 24.8% (in March 2025, an increase for investment of 3.6% and a decrease for restoration of 10.0%),
- compared to February 2026, an increase for investment works by 45.7% and by 14.4% for restoration works.

In the period January-March 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production were noted for restoration works by 29.9% and an increase for investment works by 3.6% (in 2025, a decrease for restoration works of 7.9% and an increase for investment works of 4.5%).

In the period January-March 2026 construction and assembly production decreased of 7.0%. Production was lower for restoration works and higher for investment works

In March 2026, investment works increased significantly by 11.8% an annual and by 45.7% compared to February 2026
