Sold production of industry in March 2026¹

↑ 9.4%

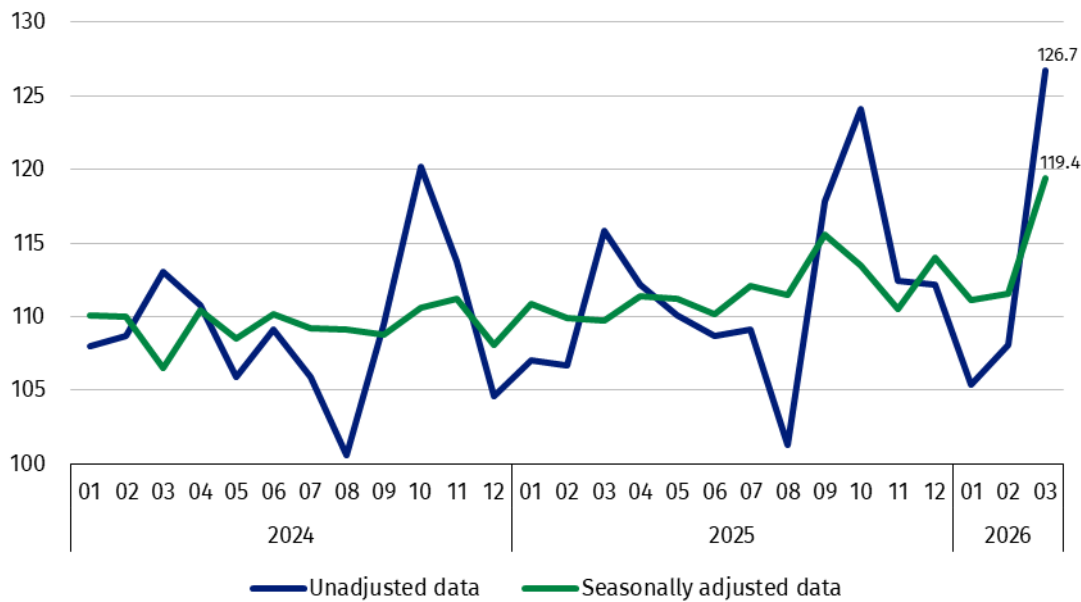

Increase in sold production of industry compared to March 2025

In March 2026, sold production of industry was by 9.4% higher than in March 2025 (when an increase was recorded by 2.4%), whereas in comparison with February 2026, it increased by 17.2%. In the period January-March of 2026, sold production of industry was by 2.9% higher than in the corresponding period of 2025 (which saw an increase by 0.8%).

After eliminating the seasonal factors, in March 2026 sold production of industry reached the level higher by 8.8% than in the corresponding month of 2025 and by 7.0% higher than in February 2026.

After seasonal adjustment, sold production of industry in March 2026 increased by 8.8% per year

Chart 1. Sold production of industry (constant prices; monthly average of 2021=100)

In March 2026, among the main industrial groupings there was an increase per year in the production of energy – by 18.3%, capital goods – by 9.4%, non-durable consumer goods – by 8.8% and intermediate goods – by 8.4%. A decrease was observed in the production of durable consumer goods – by 1.0%.

The highest y/y increase was recorded in the production of energy, while a decrease – in the production of durable consumer goods

¹ Preliminary data; comprise enterprises with 10 or more persons employed.

a Data including final information on production and prices in February and preliminary data in March.

* Data revised.

Chart 2. Sold production of industry (constant prices; corresponding month of previous year=100)

According to the preliminary data, in March 2026 an increase in sold production (in constant prices), compared to March 2025, was reported in 28 (out of 34) industry divisions, among others in repair and installation of machinery and equipment – by 35.3%, in manufacture of other transport equipment – by 19.5%, manufacture of machinery and equipment – by 13.0%, manufacture of beverages – by 12.9%, manufacture of food products – by 11.2%, manufacture of rubber and plastic products – by 11.1%, manufacture of other non-metallic mineral products – by 10.9%, in waste collection, treatment and disposal activities; materials recovery – by 10.2%, in manufacture of chemicals and chemical products – by 9.9%.

A decrease in sold production of industry, compared to March 2025, was recorded in 6 divisions, among others in manufacture of tobacco products – by 10.3%, manufacture of textiles – by 6.1%, manufacture of basic – by 2.5%.

The share in total industry of sold production of divisions which recorded an increase per year, amounted to 93.1%

Methodological note

Data presented in this news release concern entities with 10 or more persons employed, conducting economic activity classified according to the Polish Classification of Activities (PKD 2007/NACE Rev. 2) to Industry, i.e. to the following sections: 'Mining and quarrying', 'Manufacturing', 'Electricity, gas, steam and air conditioning supply', 'Water supply; sewerage, waste management and remediation activities'.

Statistical unit, according to which the presented data are compiled, is a legal unit. Methodology of compiling data on sold production of industry is presented in the methodological report [Industrial production surveys](#).

In addition, for the needs of European statistics, data on industrial production are also compiled according to the kind-of-activity unit (KAU). The concept of the kind-of-activity unit is presented in the methodological report [Short-term statistics by European concept of the Kind-of-activity unit](#).

In case of quoting Statistics Poland data, please provide information: "Source of data: Statistics Poland", and in case of publishing calculations made on data published by Statistics Poland, please include the following disclaimer: "Own study based on figures from Statistics Poland".
