

Construction and assembly production in April 2026¹

21.05.2026

↑ 4.5%

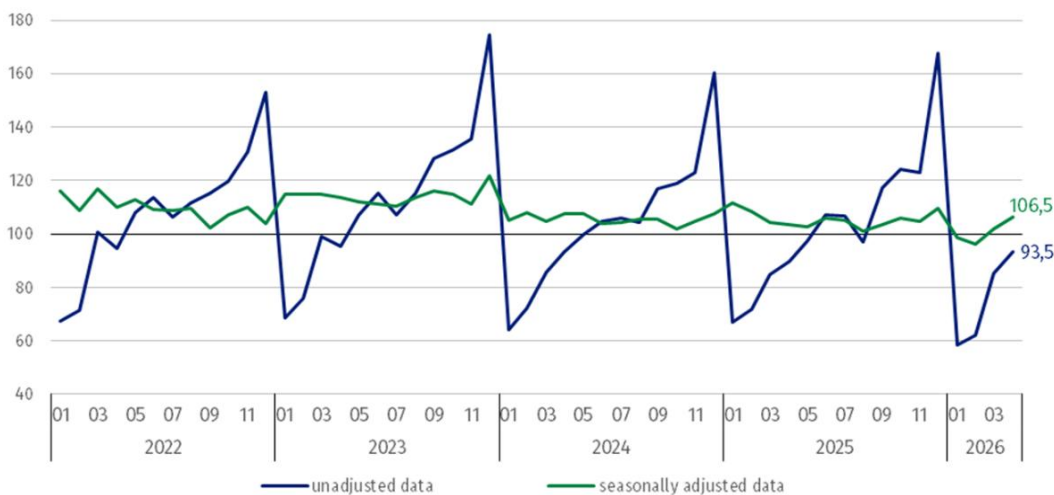

Increase of construction and assembly production compared to April 2025

According to preliminary data construction and assembly production (in constant prices) carried out domestically was in April 2026 higher by 4.5% an annual. Compared to March 2026 an increase was noted by 9.7%.

In April 2026, after eliminating the seasonal factors, construction and assembly production reached the level by 3.1% higher than in the corresponding month of the previous year and higher by 3.4% in comparison to March 2026.

After seasonally adjusted, the increase was noted in construction and assembly production of 3.1% an annual

Chart 1. Construction and assembly production (constant prices; average monthly base 2021=100)^a

^a Preliminary data for April 2026.

Compared to the average monthly value of 2021 construction and assembly production in April 2026 (in constant prices), was lower than 6.5%, whereas after eliminating the seasonal factors was higher by 6.5%.

Construction and assembly production in April 2026 increased in all construction divisions an annual. For entities dealing mainly with construction of buildings of 5.2%, performing specialised construction activities of 4.4% and in entities whose basic type of activity was civil engineering of 3.9%.

¹ Preliminary data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

In April 2026 compared to March 2026, an increase in the sales of construction and assembly production was noted in entities dealing mainly with civil engineering works of 25.3% and whose basic type of activity was construction of buildings of 3.7% whereas decreased in entities performing specialised construction activities of 0.7%.

Table 1. Construction and assembly production (constant prices)^a

Specification	2026					
	03	04	03	04	01-03	01-04
	previous month = 100		corresponding period of the previous year = 100			
CONSTRUCTION	137.2*	109.7	100.6*	104.5	93,1*	94,2
Construction of buildings ^Δ	129.7	103.7	101.3*	105.2	94,1*	95,2
Civil engineering works ^Δ	138.5*	125.3	99.8	103.9	92,5*	93,8
Specialised construction activities	144.6*	99.3	100.7*	104.4	92,5*	93,7

^a Data including final information on production and prices in March and preliminary data in April 2026.

* The data has been changed compared to what was previously published.

^Δ Abbreviated form according to PKD 2007.

In the period January-April 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted of 6.3% in entities performing specialised construction activities, in entities dealing mainly with civil engineering works of 6.2% and whose basic type of activity was construction of buildings of 4.8%.

Analyzing the value of construction and assembly production in April 2026 in terms of construction works (investment and restoration works) were observed:

- an annual increase for investment works by 13.0% and a decrease for restoration works by 15.4% (in April 2025, an increase for investment of 1.9% and a decrease for restoration of 16.0%),
- compared to March 2026, an increase for restoration works by 14.4% and for investment works by 8.3%.

In the period January-April 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production were noted for restoration works by 27.4% and an increase for investment works by 4.3% (in 2025, a decrease for restoration works of 7.8% and an increase for investment works of 3.2%).

In the period January-April 2026 construction and assembly production decreased of 5.8%. Production was lower for restoration works and higher for investment works

In April 2026, investment works increased by 13.0% an annual and by 8.3% compared to March 2026
