¹ Results: preliminary for April 2026, final for March 2026.

Prices changes of sold production of industry in April 2026 compared to the previous month

According to preliminary data the prices of sold production of industry in April 2026 increased compared to March 2026 – by 0.5%. This is the third consecutive month 2026 in which prices have increased.

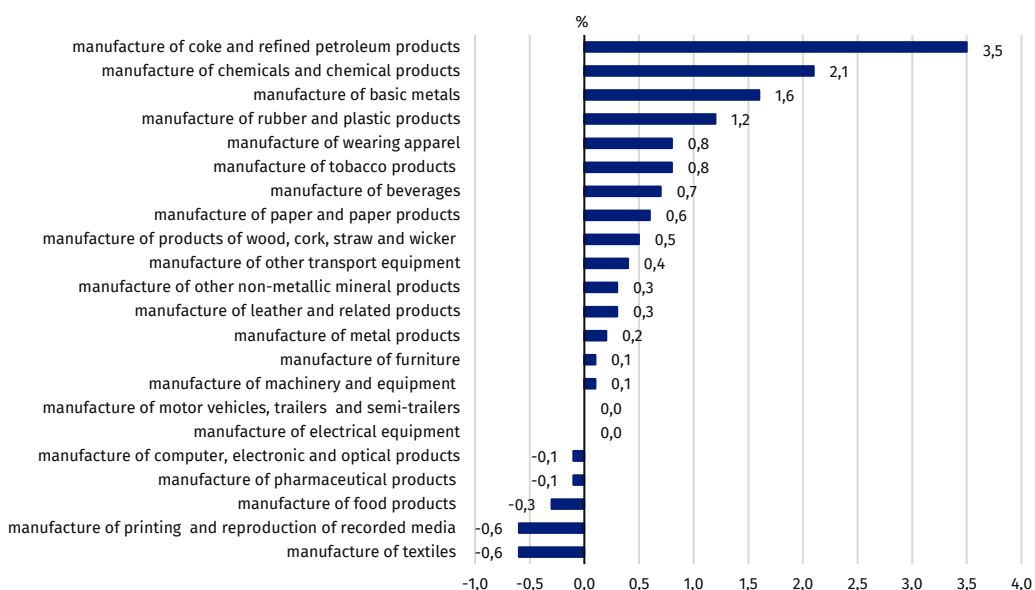

Chart 1. Prices changes of sold production of industry compared to the previous month

In April 2026 prices of sold production of industry increased by 0.5% compared to the previous month

The price increases were recorded in **manufacturing** – by 0.6%. The prices have decreased, in **mining and quarrying** – by 0.2% (including in mining of hard coal and lignite – by 0.5%, and remained at a level similar to that recorded in the previous month in mining of metal ores). Prices were also reduced in the **electricity, gas, steam and air conditioning supply** – by 0.9%, and in **water supply; sewerage, waste management and remediation activities** – by 0.1%.

Chart 2. Prices changes of sold production of industry by divisions in April 2026 compared to the previous month

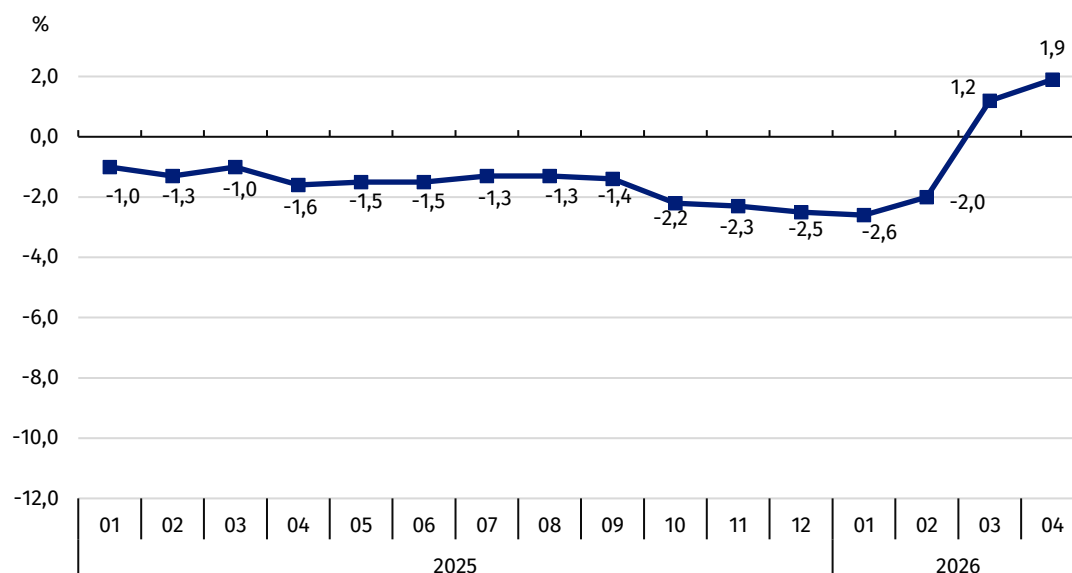

In April 2026 among divisions of manufacturing in comparison to the previous month the prices increased the most in manufacture of coke and refined petroleum products – by 3.5%. The largest price decrease was recorded in the manufacture of printing and reproduction of recorded media and manufacture of textiles - by 0.6%

Prices changes of sold production of industry in April 2026 compared to the corresponding month of the previous year

In April 2026 the prices of sold production of industry compared to the corresponding month of the previous year increased by 1.9. On an annual basis the prices have increased slightly in the last two months, following declines observed since July 2023.

Chart 3. Prices changes of sold production of industry compared to the corresponding period of the previous year

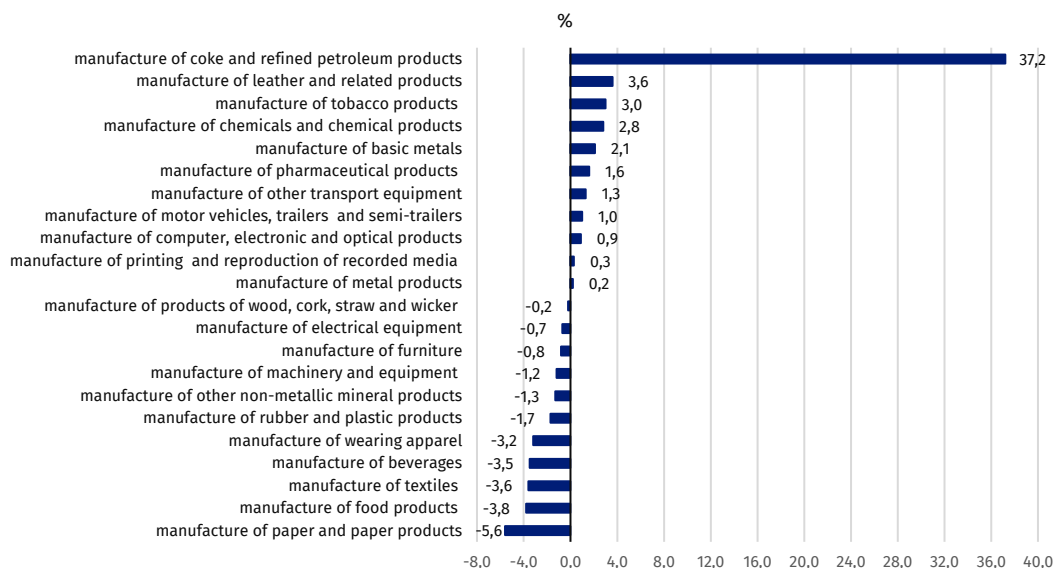

In April 2026 an increase in the dynamics of prices of sold production of industry per year was observed by 1.9%

Among the sections in industry price increases were recorded in **mining and quarrying** section – by 3.7% (including in the mining of metal ores – by 11.6%, compared to a decline in the mining of coal and lignite prices – by 4.2%). Prices have also increased in **manufacturing** section – by 2.3%, as well as in **water supply; sewerage, waste management and remediation activities** section– by 1.4%.

Lower than in April 2025 were prices in **electricity, gas, steam and air conditioning supply** section – by 1.2%.

Chart 4. Prices changes of sold production of industry by divisions in April 2026 compared to the corresponding month of the previous year

In April 2026 in comparison to the corresponding month of the previous year, the prices increased the most in manufacture of coke and refined petroleum products – by 37.2%, and decreased the most in manufacture of paper and paper products – by 5.6%.

Chart 5. Prices changes of sold production of industry by sections NACE rev. 2 compared to December 2024

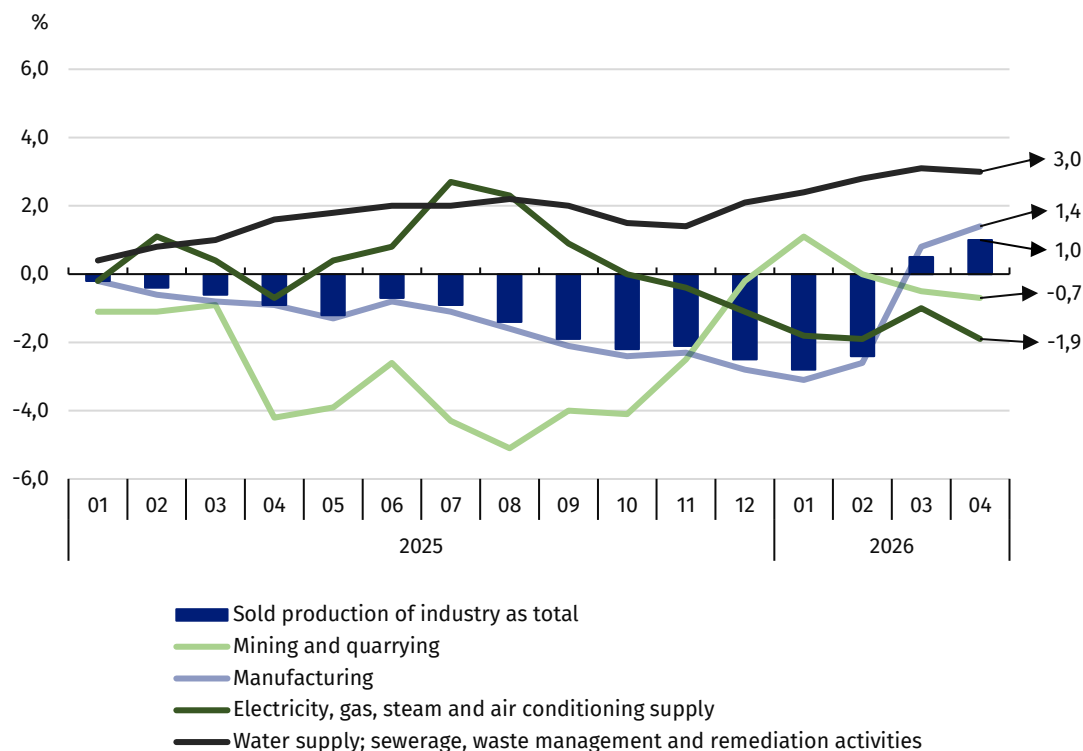

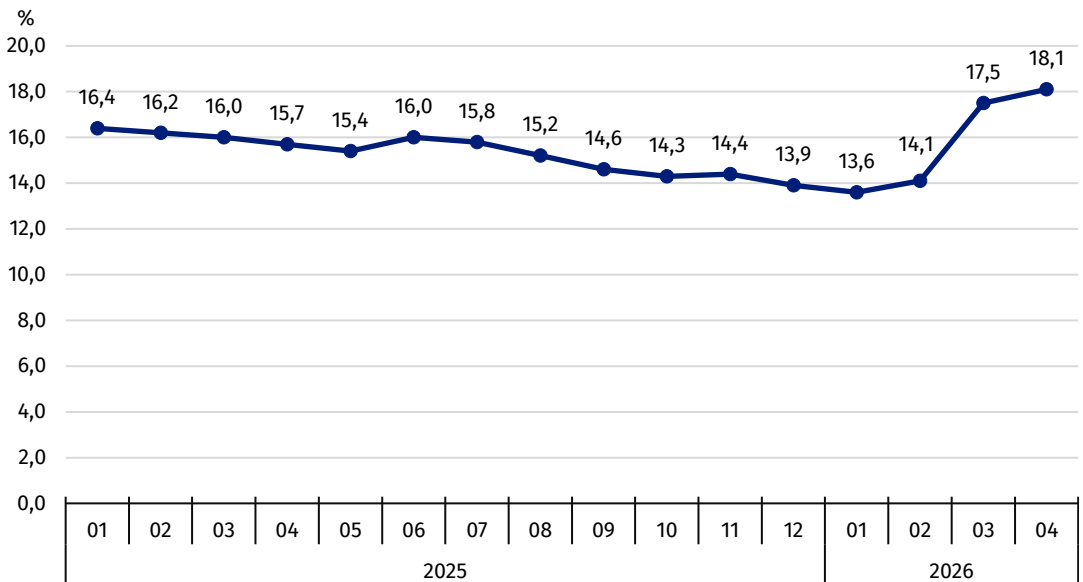

Chart 6. Prices changes of sold production of industry in 2024-2026 compared to 2021
